WELLCOME TO MY RESUME

PROFILE

Motivated web and app developer currently pursuing a Diploma in Software Engineering. Skilled in PHP, ASP.NET, and Flutter with hands-on project experience. Eager to learn and grow in a professional development environment.

CAREER OBJECTIVE

A motivated and passionate fresher in web and app development, eager to contribute to real-world projects and grow professionally. Skilled in front-end and back-end technologies with a solid foundation in software engineering principles. Currently pursuing a diploma in Software Engineering and actively building hands-on projects to enhance my skills.

PROJECTS

○ **Courier Management System**

PHP & MySQL

Built a web-based courier system for tracking and managing shipments. Included features like branch management, parcel tracking, and user/admin login.

○ **DecorVista – Furniture Website**
ASP.NET MVC

Developed an e-commerce platform for furniture products with secure login, product listing, cart system, and admin panel.

○ **Eventure – Event Management System**
ASP.NET MVC

Created a platform for users to book and manage events with admin features, user registration, and email notifications.

EDUCATION

○ **Diploma in Software Engineering**
Aptech Computer Education
– Currently in 5th Semester

○ **Matriculation**
Completed in 2025
Aziz-e-Millat English
Medium School
